

Request for Technical consultations and radiation measurement in the field of radiation prevention

About the Service

This service enables facilities to obtain radiation protection and prevention advice and contribute to a safe working environment in the field of radiation in accordance with international radiation protection standards.

{c1da060b-d67b-471c-bc92-2d54f6326097}

Service Process

- An application for the service should be submitted by e-mail.
- The prescribed fee must be paid as per the decree of the Council of Ministers and a copy of the payment receipt sent by e-mail.
- The Radiation Protection Section will telephonically request an appointment to visit the facility.
- The necessary measurements will be made (if required)
- Reports related to the status of the establishment will be written.
- These reports will be communicated with the establishment.

Required Documents

- A copy of fee payment receipt
- Additional documents may be requested by the Radiation Protection section depending on the type of service.

Conditions & Requirements

1. The prescribed fees must be paid as per the decree of the Council of Ministers (No. 3 for year 2001) and a copy of the payment receipt provided by e-mail.
2. Additional requirements may be scheduled by the Radiation Protection Section, depending on the type of service.
