

Request for Blood Donation

About the Service

This service enables individuals to donate blood for transfusion to those who need it.

Service Process

- Upon arrival at the blood bank, register.
- Review the available educational material regarding blood donation, complete the required questionnaire, and sign the Informed Consent form.
- Preliminary tests will be conducted to determine your blood group and measure vital indicators, including blood pressure, heart rate, and body temperature.
- Proceed with the blood donation process.
- After donation, take some time to rest and enjoy the hospitality provided to all donors.
