

Request for Provision of Blood Units and Components

About the Service

The service is designed to support hospitals and one-day surgery centers by delivering vital units of blood and its essential components, such as platelets and plasma, to fulfill a wide range of medical needs.

Service Process

- An initial contract for blood provision must be signed between EHS and the medical establishment (hospital or one-day surgery center)
- Submit the application for blood units and components
- Pay the fees (only private hospitals and centers)
- Receive the required blood units

Required Documents

- A copy of the Blood Units Provision Contract between EHS and the private hospital
- A Blood Request Form clarifying the quantities of blood units and type of blood components required. Blood units will be provided on the day of approval or as agreed with the donor center
- For private hospitals, fees may be paid through eDirham at the Blood Bank center

Conditions & Requirements

1. A signed contract between EHS and the receiving hospital or one-day surgery center is required for the provision of blood
2. Blood units and blood components are free for public sector hospitals

Service completion duration

- Based on the requested quantity of blood units
