

Preconception Care

About the Service

This service provides care for women of childbearing age and women planning a pregnancy, including evaluations of their condition and the necessary medical examinations to avoid health risks they may face to ensure a healthy pregnancy.

Service Process

- Visits to primary health care centers must be pre-scheduled
- Pregnancy information is recorded at the reception desk
- The patient's condition will be referred to the doctor for evaluation. Certain tests will be required as needed
- Required analyses will be conducted "If required"
- The patient's condition will be reviewed according to analysis results and the necessary advice and treatments will be provided
- Dispense medicines from the pharmacy "If needed".

Required Documents

- Valid Health Card
- Valid UAE ID card

Conditions & Requirements

1. The services provided to UAE nationals and UAE residents only
2. Married women of childbearing age (3-6 months before conception)
3. In the case of early detection of high-risk pregnancies, the case might be referred immediately to hospitals for monitoring according to the Pregnancy Care Guidelines

Service completion duration

- 30 - 60 minutes

Service Fees
