

Periodic Health Screening

About the Service

This service provides customers with a comprehensive periodic screening for non-communicable and chronic diseases such as heart disease, high blood pressure, diabetes, cancer, lung diseases, osteoporosis, and depression. It also includes giving vaccinations and detecting problems related to smoking, nutrition, and lifestyle.

{c1da060b-d67b-471c-bc92-2d54f6326097}

Service Process

- Complete the risk assessment questionnaire by using a link received from the Emirates Health Services website
- If necessary, you will be contacted to book an appointment at the primary health care centers of the Emirates Health Services
- Go to the appointment with the required documents
- Attend on time and register at reception
- A doctor will perform the clinical examination
- Necessary tests will be performed
- The case will be followed up according to the doctor's instructions.
