

Safety Checklist – For Poster and Awareness

If You Are at Home

- Monitor weather updates from NCM and official media.
- Ensure drainage channels are clear.
- Disconnect electrical appliances.
- Follow evacuation orders immediately.
- Shut off electricity and water if required.
- Avoid showering during storms.
- Use mobile or cordless phones indoors.
- Move to higher floors if trapped; avoid enclosed attics.
- Contact healthcare providers if you need medical help.
- Listen to emergency broadcasts.

If You Are Outside

- Stay away from tall trees and power poles.
- Avoid beaches, flowing water, wadis, and dams.
- Keep away from power lines even if they appear inactive.
- Do not walk or swim in floodwater.
- Avoid using mobile phones outdoors during thunderstorms unless necessary.
- Never try to restore power yourself.
- Follow evacuation orders immediately.

If You Are Driving

- Listen to weather updates on the radio.
- Reduce speed, turn on headlights, and keep a safe distance
- Do not drive through flooded roads.
- Never cross flowing water, even if it looks shallow.
- Avoid bridges over fast-moving water.
- If trapped, stay in the vehicle and move to the roof if water rises.
- Never drive around official road barriers.
